Portfolio : <https://charlesbouvier.dev/>

GitHub : <https://github.com/lignix>

Mobility: Relocation OK / Driver's License (cat. B)

Graduated with a Bachelor's degree (BUT) in Computer Science. I am a versatile full-stack developer combining mastery of modern web ecosystems (React, Next.js, TypeScript) and the design of robust architectures (Java, C#). I can manage a product from A to Z with strong algorithmic rigor and a "pixel-perfect" attention to detail

EXPERIENCE

- **Frontend Developer Intern | Wolters Kluwer (Bois-Colombes, France) :** March 2025 – June 2025
 - Developed and maintained complex data export scripts for formatting PDF and Excel documents in TypeScript.
 - Designed automated software solutions for generating complex multilingual Word documents.
 - Integrated and linked data with professional web interfaces.
- **Frontend Developer Intern | Phraser (Remote, English-speaking environment) :** June 2024 – August 2024
 - Developed a consumer-facing AI assistant interface using React, Next.js, and TailwindCSS.
 - Collaborated daily 100% in English within an international technical team.

EDUCATION

- 2022-2025: Bachelor of University of Technology (BUT) in Computer Science (Track: Application Development, Data Modeling, and Software Engineering), IUT de Paris Rives de Seine
- 2022: High School Diploma (Baccalauréat STI2D), Passed with Honors

PROJECTS (links available on GitHub)

- C2C Marketplace Platform: Consumer-to-consumer sales platform developed with Spring Boot and React.
- Anomaly Detection Game designed in Unity based on anomaly detection and spatial loop management.
- 2D Narrative Platformer: Exploration and platform game developed in Unity using C#.
- Tool evaluating the difficulty of Japanese texts based on JLPT levels and estimating reading time.

SKILLS

- **Frontend** : React, Next.js, TypeScript, JavaScript, TailwindCSS, HTML/CSS
- **Backend** : Java, C#, .NET, Node.js, Python, PHP, SQL
- **Methodologies & Concepts**: Object-Oriented Programming, MVC, Agile Environment (Scrum)
- **Tools** : Git, VSCode, IntelliJ, Notion, Linear, Figma
- **Languages** : French (Native), English (C1), German (A2), Chinese (A1), Japanese (N5 - self-assessed)
- **Software** : Microsoft Office Suite, Google Docs & Spreadsheets
- **Soft-Skills** : Adaptability, international team collaboration, self-taught, problem-solving

PERSONAL INTERESTS

Video Games: Rhythm games, narrative games, interest in game design, following indie developments

Japanese Culture: Anime, Manga, daily self-taught language learning

Travel : Planned tour across several Asian countries, including a major cycling tour of Japan.
